[jasonfeng365@gmail.com](mailto:jasonfeng365@gmail.com)

Backend developer, mobile and embedded engineer, and competitive programmer, pursuing a M.S. in Computer Science at UCLA  
ICPC Pacific Northwest judge; 2025 North American Championship contestant, first place at 2023 Division 2 PacNW ICPC  
Experience in fullstack and mobile development and task automation, along with problem solving and algorithm design

## EXPERIENCE

### Software Engineering Intern

Oracle

Fusion Cloud, AI Agent Studio, A2A, Terminal-Bench

Redwood Shores, CA | June 2026 – September 2026

- Developing image- and audio-to-text parsing workflows for integration within Fusion Cloud sales applications
- Designing a framework for agent-to-agent role assignment for privileged data access, while maintaining least-privilege
- Automating benchmarks of AI-driven development and debugging tools through high-level and multi-step tasks

### Android Development Intern

AgScout.ai

Android, GCP, [tus](#), Kotlin, Node.js, Express, K8

Davis, CA | June 2025 – September 2025

- Developed an automatic file uploader for [resumable overnight transfers](#) from Android phone to Google Cloud Bucket
- Ensuring data is verified with chunk- and file-level checksums, and that no data is lost through many layers of failsafing
- Eliminates manual upload work and supervision; automatically activates while charging and with high-speed internet

### Embedded Systems Research Assistant

Laboratory for Embedded and Programmable Systems

Qt Creator, Doxygen, Lambda, API Gateway

Davis, CA | July 2024 – February 2025

- Refined a prototype Qt signal processing GUI to read in frequency-domain using Fast Fourier Transforms
- Built and demonstrated a Qt iPhone application to wirelessly update a desktop Qt application using websockets

## PROJECTS / VOLUNTEERING

### Judge / Competitive Programming Problemsetter

International Collegiate Programming Contest

Codeforces/Polygon, Markdown, LaTeX

Remote | May 2025 – Present

- Co-wrote annual [Pacific Northwest ICPC](#) problem sets for 450+ college contestants from [150+ self-written challenges](#)
- Singlehandedly wrote biannual educational [Sierra College contests](#); led student teams to host annual [UC Davis contests](#)
- Developed a custom [contest administration system](#) to track contestants' progress, and to alert if a contestant is stuck

### CANIS

Contest Administration, Notifications, and Information System

Spring, Gradle, OCI, Google Apps Script, STOMP

Personal project | July 2024 - Present

- [Fullstack Java Spring application](#) for automation of [UC Davis's](#) and [Sierra College's](#) competitive programming contests
- Integration with Codeforces and HackerRank platforms into standardized submission data for push notifications
- Cloud-hosted public REST API, web interface for contest creation and management, and self-schedulable notifications

### CycleGuard

Gamified embedded smart helmet and smartphone interface

Flutter, Spring, Cloud Run, DynamoDB

UC Davis Capstone Project | January 2025 - June 2025

- Collaborated with seven peers to develop a cross-platform Flutter smartphone application with a self-made smart helmet
- Wrote by myself and documented a [well-maintained Spring backend](#) following principles of clean code, hosted on GCP

### Build Your Own Labyrinth

2.5D isomorphic maze game for TI LaunchPad microcontroller

C, Flask, AWS IoT, Bootstrap, Vue.js, Fabric.js

UC Davis Embedded Systems | May 2024 - June 2024

- Wrote a [2.5D isomorphic rendering and physics engine](#) in C from scratch, for a microcontroller and a 128x128 OLED
- Connected an AWS IoT Rest API and a Fabric.js level [editor](#) and [viewer](#) with a Flask backend for a full-stack application
- Built the class's best project in Spring 2024; offered an embedded systems internship position with my project teammate

## EDUCATION

### UCLA Samueli School of Engineering

Pursuing Computer Science, M.S.

Los Angeles, CA

September 2025 - June 2027

### UC Davis College of Engineering

Sole recipient of the [2025 Computer Science and Engineering Outstanding Senior award](#)  
Computer Science and Engineering, B.S with highest honors

Davis, CA

September 2023 - June 2025

## SKILLS

**LANGUAGES** | Java, Kotlin, Python, Dart, C, C++, C#, HTML, JavaScript, ARM, PSQL

**LIBRARIES** | Spring, Flask, PyTorch, Keras, TensorFlow, Flutter, Qt, Unity, Bootstrap, Vue.js, Node.js, Axios, Fabric.js

**TECHNOLOGIES** | Gradle, Git/GitHub, AWS, GCP, OCI, Doxygen, Docker, Selenium, Android
